Information about COVID-19 virus

Dear Sirs and Madames,

as you know from public knowledge, the COVID-19 virus ("Corona virus") has spread worldwide. In response to the full spread of COVID-19, we have taken several initiatives, to reduce the possibility that one of our employee get infected with the virus.

We asked our employees to stop their private travel activities. Professional trips are prohibited until further notice. Likewise, all visits by external parties that are not related to the delivery of goods and / or services are currently prohibited. Every employee who shows symptoms of illness while working is referred to a doctor immediately.

Maintaining a healthy workforce will enable us to continue operating our manufacturing facilities at a normal level.

In the event of a significantly wider spread of the virus, which leads to personnel problems at a production site, we have developed emergency plans to minimize possible effects. This includes the possibility of producing steel drums of the same design in the Bad Lauterberg plant and in Kleve.

If you need any further information, please do not hesitate to contact us.

We thank you for your trust and look forward to continuing our good cooperation.

Kind regards,
Hemeyer Verpackungen GmbH
Werk Lauterberg – Kleve – Bitterfeld
