Confirmation of no use of Russian Steel

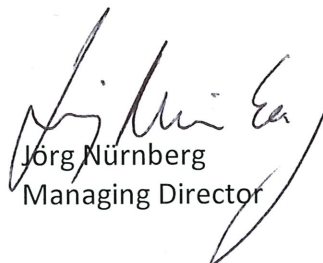

Dear sirs,

Hemeyer Holding GmbH confirms in our production process we only use steel not originating from Russia. Our companies Hemeyer Verpackungen GmbH, Werk Bad Lauterberg, Hemeyer Verpackungen GmbH, Werk Kleve and Hemeyer Verpackungen GmbH, Werk Greppin receive steel directly from the mills of Salzgitter AG, thyssenkrupp Steel Europe AG and ArcelorMittal SE which do not use Russian Steel according to EU laws and sanctions.

All our steel is received with batch numbers and our production system allows 100% tracability of materials used. If necessary, Hemeyer is able to identify the relevant supplier in order to prove origin of raw materials.

Kind regards,

Holger Braun
Managing Director
